

MEMORANDUM

To: Bicycle and Pedestrian Task Force
From: CMAP staff
Date: June 2014
Re: CMAP 2010 Land Use Inventory

CMAP periodically conducts a survey of the region’s land use, publishing the results in GIS format as the [Land Use Inventory](#). The inventory is an essential input to CMAP’s land use and transportation research. Other users of the data include planning departments, transportation agencies, federal and state agencies, university researchers, non-governmental organizations, and consulting firms.

Visit the CMAP Data Hub Land Use website <https://datahub.cmap.illinois.gov/dataset/land-use> to learn more and to download the data.

Land Use Inventory for Northeast Illinois, 2010

Geodatabase and supporting documentation depicting land use in northeast Illinois broken out to 60 categories. In a departure from past practice, land uses were identified at the parcel level using parcel and assessor data provided by the seven northeast Illinois counties. Parcels were dissolved on common land use types, and polygons were generated for non-parcel areas (such as road rights-of-way) and assigned a general classification based on supplementary reference datasets.
